

FZ 2075

A 2 VELOCITA'

MI 2032

Attenzione: se dovete cambiare il supporto bicchiere frullino su apparecchi acquistati prima di settembre '99 che non hanno l'interruttore sulla capottina, dovete acquistare il supporto (14) + la testata (22) e carbarli entrambi. L'esatto n° del pezzo di ricambio è 14c.

Attention: if you have to change the glass support on old models of frappe-blender that have not the switch on the small hood, you have to order the pos. n° 14c (14+22) glass support with head and change both they.

Attention: si vous devez changer le support du bol dans un vieux model de batteur milk-shake qui n'a pas l'interrupteur sur la petite capote, vous devez commander le piece 14c support+tete (14+22) et changer tous les deux.
